NINO Ultra-compact, fully adjustable EPOS system

With its sleek modern appearance and capabilities, **NINO** is an ultra-compact, fully adjustable EPOS, with the specificity of being able to fold flat; it is perfectly suited for most retail and point of sale sectors.

It has a 14 inch 16:9 format style touchscreen (*PCAP* or resistive touch panel) and is designed to be no bigger than a small desktop, with full EPOS functionalities. Thanks to its completely flexible and adjustable swing arm, which is attached to the die-cast aluminium base, it can be folded flat or adjusted to all viewing angles from flat to 90°. This means it can be used «flat» like a console, on its base, or mounted on a wall or pole (several mounting accessories, as well as VESA fixings, are available).

Fanless, equipped with an HDD (SSD is optional) it is perfect for harsh environments and always in tune with the new environmental standards (low energy consumption and small carbon footprint).

It is the ideal companion for all pop-up stores and shops, for take away food & non-food specialists, including food & catering trucks, mobile canteens, etc.

## **TOUCH THE DIFFERENCE**

## NINO

Intel Cedar View D2550 processor

- Edgeless flat touchscreen (PCAP / resistive panel in option)
- Small, ultra compact EPOS able to fold flat
- HDD 2.5" (or SSD in option)
- Base fully adjustable from flat to 90°
- 4 serial ports, 4 USB ports
- Display Port with HDMI support
- +12 V output for peripheral power supply
- Low power consumption & small foot print
- Manifold system: base, pole or wall mounting options

16:9

MODEL	NINO
Processor	Intel Atom Cedar View D2550
Chipset	NM10
Memory	DDR3 SODIMM 2GB in standard - up to 4GB (2 sockets)
HDD	2.5" - (or optional SSD)
LCD	14 " TFT (1366 x 768) – LED back light
Touchscreen	PCAP edgeless (or true flat resistive in option)
Brightness	220 cd/m2 with auto dim
0	
I/O PORTS	
Serial	4 x serial ports with + 12V power option
USB	4 x USB 2.0 ports
Power out	+ 12 volts for peripheral power
LAN	10/100/1000 Base-T
2nd Display	Display Port with support for HDMI, DVI et VGA (with adaptor)
Cash drawer	1 x 12 V or 24 V
Audio/sound	internal speakers and combo headset + mic jac
Power input	19VDC from 65W power adaptor mounted in base
Mini-PCI Express	1 internal mini PCI Express slot (for WIFI)
